The Big Gray Cargo Plane

(flannel board story)

(Start with all vehicles stacked on top of each other on the board, AIRPLANE on top. Peel them off one by one. The pieces are heavy, so keep a finger on them as you peel off each top layer.)

Once, there was a big gray cargo plane.

It flew in the sky and when it landed and opened its cargo hatch:

Inside was a small freight train, with a black engine, a yellow freight car, and a red caboose.

Inside the freight train, was a blue sail boat with a white sail and a red flag.

Inside the sail boat was an orange truck.

Inside the orange truck was a green car.

Inside the green car was a little red wagon with a yellow handle.

And inside the little red wagon was a gray scooter.
